

## Today's Class Process:

Professor Introduction → Student Introductions →  
Syllabus Review

A lot of self-exploration, learn more about GACS, independent work,  
finding success.

### Syllabus Review

Despite the syllabus saying laptops are not allowed, Holly says she  
does not mind if we have our laptops out. Will probably continue taking  
notes on paper due to small desks.

### Personal Notes

I am not excited about this class and believe it to be my worst  
class as it is basically iLEAD Academy except worse as we have to do  
personality tests and stuff like that. I heavily dislike giving out information  
about myself like that. The things that make it similar is that we are  
graded on our resume, meetings with advisers and more.
